

- H. Tabletop Exercises/Training – the committee discussed beginning the exercises with a scenario relevant to what the University might experience, such as a weather event or gas leak. Mr. Grabryan said that his office will be happy to assist with the exercises. He will attend the next SEP Exec meeting to further discuss.
  
- J. Building Coordinator Proposal – following a meeting with Mr. Gautney to discuss the building coordinator program, it was determined that it will take more to implement it than originally thought, so it will be introduced either late summer or early fall 2020.

IV. Announcements
